

This sturdy **CARTONI** special support - tripod weighing only kg 16.6 (36.6 lbs) - is engineered to combine the height range **advantages of a standard pedestal** with the low cost, robustness and fast operation of a tripod.

Extremely rugged, the **Elevation Unit** holds up to 200 kg (440 lbs) while the height is **adjustable with a crank** - conveniently located on the base of the column - with an **elevation range of 38 cm (14.9")**.

The top platform can accept any Mitchell flat base head and Vinten 4 Bore holes.

specifications ■

Product Code	T 625/E
Series	1 Stage - Elevation Unit
